Your views on Employment						
		Young/school leaver opportunities	Digital future	Small business	Rents/Rates	Other
1	Support for a digital economy would 'enable' high value small business development					
2	Both public and private education establishments should work together to support 'digital' skill development					
3	All the jobs in Marlborough are low paid: people cannot afford to park and/or live here. Pay the living wage.					
4	Do <u>not</u> close Vantage Chemist. Very busy, very necessary					
5	We need more space for small businesses					
6	Yes - the George Lane Chemist is important, the alternative is Boots; American owned and asset stripped.					
7	Rents are too high - tourism likes small businesses. Too many chain stores & charity shops					
8	Lower rents & rates in the High Street to prevent Marlborough from becoming another 'clone' town					
9	Be creative with brown field sites within the town					
10	Any support for small business set up? Lower rents? Tax?					
11	Needs to be more provision for the people in low paid jobs to be able to live here. How do young people get to work? More opportunities for school leavers in town					
12	Yes - St Peter's School					
13	Yes - They are the fibre generation who will keep the town alive.
